## Experience

**Software Developer Intern** | Prosper IT Consulting - Portland, OR April - May 2021

- Created a Django featured web application in collaboration with a team of junior developers.
- Utilized Agile/Scrum fundamentals to ensure tasks were kept on schedule for the project, included daily stand-ups.
- Conducted comprehensive code testing to ensure proper operation and quality of application.

**Commercial Driver** | Portland - OR March 2016 - August 2020

- Worked in the Transportation industry as a commercial driver, adhering to DOT guidelines & regulations through accurate procedures and documentation.
- Communicated effectively with clients, to ensure proper documentation and excellent service.
- Proactively planned the work day schedule and made adjustments based on external factors such as road conditions, and customer availability.

**Network Technician** | Bigfoot PC Services, LLC Portland, OR March 2015 - February 2016

- Assembled self-checkout stands in retail stores, along with installing CCTV Security for regional customers.
- Performed layout of Cat-5 trunk lines and set up equipment to the server; assigning MAC & IP.
- Installed POE cable at client facilities to enable network connectivity and monitoring with VPS.

## Projects

**The Ship Bunker Project** 2021-current

- Utilizing Python, Django, HTML and CSS to develop an online platform for members of a gaming community to engage with one another, with the intention to make a mobile app using React Native.
- Designed several wireframes using Adobe XD.
- Using PostgreSQL for data management and storage.

**MarketWatch Project** 2021-current
